## **INTRODUCTION**

ISO 45001 is the internationally recognized standard enabling businesses to measure and demonstrate their commitment to occupational safety and health. This is a good way forward. It has positive benefits as well as reassurance including:

- Confidence that you proactively manage Health and Safety
- Confidence that you exercise due diligence
- You have a system that ensures you plan, implement, assess and review your H&S systems regularly and maintain continuous improvement

- You have systems and procedures that identify, reduce , mitigate and control health and safety concerns within the business
- Systems can be integrated with compliance to other standards such as ISO 9001 and ISO 14001.
- People within your company have clear communication about the part they play in the development of their company safety.
- Insurers may lower premiums.

Auditors to,

- Evaluate risk, document processes and systems in flowchart and narrative form and design audit programs.
- Review written work to ensure high quality deliverables and minimal review iterations.
- Apply audit lessons to reduce recurring review comments.
- Draft written reports and audit findings deliverables and present them to management.
